I'm putting my name forward for the Chief position. These are my visions as your future leader.

- 1) Communication ensuring we communicate regularly. Listening to our membership visions and actively listening to our community, understanding the needs, feelings and by doing so empowering our people.
- 2) Community involvement through strat planning, hearing your voices and concerns.

- 4) Transparency is very important and this will ensure accountability to our membership

I have experience of previously being on council member.

I've always been

an advocate for membership whose asked support.

Written many emails to council on their behalf.

I was taught and gained my cultural teachings, knowledge, history by working along with your past elders.
