Community Update

Brunswick & Ainslie Creek Wildfire

July 16, 2026

Sq'ewqel extends its support to our neighbours being impacted by the current 2 wildfires of note within the Fraser Canyon.

We want our residents to know that our Emergency Management team from the outset, has been working closely with clear lines of communication with all partners, agencies, and fire services who are contributing to response efforts where possible. We've received the request for support, and we are ready to welcome evacuees and provide the assistance they need. We remain in regular communication with all organizations and are prepared to provide supports and assistance when requested.

We encourage residents to stay informed through official information sources at this time. Updates are being issued continuously by the BC Wildfire Service website or app, FVRD website or Facebook page as well as DriveBC.

As the situation evolves, we will continue to work collaboratively with our partners to support the affected communities and First Nations to ensure the safety and well-being of residents. Our thoughts are with everyone impacted, including all responders, and volunteers at this time.

If you may have any questions, we will be set-up assisting evacuees in the SIB Gym or contact Sandra Bobb at: sandrabobb@seabirdisland.ca or call 604-997-9909.

Visit: www.drivebc.ca, www.emergencyinfobc.gov.bc.ca and www2.gov.bc.ca.

Thank you,

Kaileigh Schofield
Emergency Program Coordinator.
