COMMUNITY NOTICE

Upcoming Construction Activities

Attention Seabird Island Community Members

Please be advised that construction piling activities are scheduled to begin on **Wednesday, October 14, 2026**, and are expected to continue for approximately 10 to 14 days. Work is anticipated to take place **daily between 8:00 AM and 6:00 PM** near the project construction area.

During this time, residents in the vicinity may experience increased noise and ground vibrations. These activities are an important part of the project and may be more noticeable than previous construction work. We appreciate your patience and understanding while this work is completed.

Pet Safety Reminder

Community members are also reminded to keep pets away from the active construction and laydown areas. Construction sites contain heavy equipment and vehicles, creating potential safety hazards for animals that enter the work zone.

*Thank you for your cooperation and understanding
as this work proceeds.*
